

# 2008-2009 Modified-Legal Reprint List

Last Updated: 5/28/2009

Pokémon Organized Play permits the use of cards from sets that are not legal in the Modified format, as long as those cards have been reprinted in a Modified-legal set. In most cases, the mechanics of the old card remain unchanged, though the wording may be slightly altered for clarification. However, in a few rare cases, the game play text of a card is significantly modified. In these cases, a player may only use an older version of that card if they provide a Card-Dex with the wording for the most recent printing of the card, OR the player has a copy of the card with the most recent wording, outside of his or her deck, for reference. Cards which require a reference are indicated in red and include which version of the card includes the updated wording.

Basic Energy cards are always Modified-legal, regardless of what set they are printed in. As such, basic Energy cards are not included in the list below.
